

ACKNOWLEDGEMENT

It gives me immense pleasure to record my deep sense of gratitude to Dr. C.R. Sarkar, Dean, School of Applied Sciences, University of Science & Technology, Meghalaya, India for his invaluable guidance and constant encouragement throughout the course of the studies. I am highly grateful to Dr. M. Ahmed, Former Professor, University of Science & Technology, Meghalaya for his constant support, constructive suggestions and valuable guidance throughout my career as well as during the tenure of present studies and in preparation of this manuscript. I also convey my sincere thanks and gratitude to Dr. N.I. Singh, Senior Scientist, Central Muga Eri Research & Training Institute, Central Silk Board, Lahdoigarh, Jorhat for his constant support, innovative ideas and guidance in carrying out the research works successfully without which studies would have remained incomplete.

The author wish to record a particular debt of gratitude to Dr. K. Giridhar, Director, Central Muga Eri Research & Training Institute, Central Silk Board, Lahdoigarh, Jorhat who has been acting a mentor to the undersigned in conducting the research works. He deserves all sorts of gratefulness for permitting me to carry out Ph.D. works as in service candidate and his continuous encouragement, faith and moral support throughout the investigation period and service career.

The author is indebted to Dr. K. Neog, Sr. Scientist, Central Muga Eri Research & Training Institute, Central Silk Board, Lahdoigarh, Jorhat for his sincere guidance and providing hand holding support in conducting experiments on biochemical studies.

Sincere thanks are due to Dr. S.C. Das, Professor and Dean, School of Biological Sciences, University of Science & Technology, Meghalaya for all round supports and guidance for timely completion of research works and constructive suggestions throughout the studies.

The author acknowledges the help rendered by Dr. M.C. Sarmah, Sr. Scientist & In-charge, Eri Section, Sri B. Choudhury, Scientist-D, Dr. D.K. Gogoi, Scientist, Dr. B.N. Sarkar, Sr.

Scientist, Mr. D. Mech, Sr. Scientist, Ms. Maitry Daimari and Ms. Binita Gogoi, JRF and all Scientists of Central Silk Board for their help and encouragement.

The author is also indebted to Dr. K.C. Narayanswamy, Professor and Controller of Examinations, University of Agricultural Sciences, GKVK, Banaglore for his support in providing relevant literature and encouragement in completing the research works.

The author also expresses his thanks to all the Professors, Faculty Members and Management of University of Science & Technology, Meghalaya and Officers & Staffs of Central Muga Eri Research & Training Institute, Lahdoigarh, Jorhat for their help in carrying out the experiments throughout the period of investigation.

Moral support, inspiration and sacrifice received from my wife, Ms. Chinmayee Dash and son, Master Aryan is also deeply acknowledged.

The author owes the heartiest sense of gratitude to his mother, brothers, sister, mother-in-law, sister-in-laws and brother-in-laws for their blessings, love and inspiration.

Finally, the author would like to convey his gratefulness to Department of Science & Technology, Govt. of India for financial support under SERB R&D project and Central Silk Board, Govt. of India for providing necessary infrastructure and support for completing the research works.

I express my sincere gratitude to all those who helped me not mentioned here, directly or indirectly throughout the period of investigation.

At the last but not the least, the author owes his profound gratefulness to the "Almighty" for giving him a lot of endurance, solace at the time of need.

SIDDIQUE ALI AHMED

Dated, Jorhat

The 14th November 2014
